

Sacred Music

For the Keyboard

Revered for its depth, beauty, and timelessness, sacred music has been composed, arranged, or adapted for the keyboard ever since the keyboard was invented. From the organ and harpsichord to the clavichord and the modern piano, sacred music has inspired people of all faiths throughout the centuries.

Join us for a time-honored celebration commemorating sacred music for the keyboard in a free piano recital hosted by AmateurPianists at St. James by-the-Sea Episcopal Church.
